

PHASE

1

Willowridge Levee
PROJECT

Beginning December 30, 2013,
the Parish of St. Charles and their contractor,
Southern Delta Construction, LLC, will start
construction on the Willowridge Levee
Phase I project.

Work will typically occur between
the hours of 7:30 AM and 5:00 PM, Monday thru Friday
with an expected construction duration of one-year.

Residents are urged to use caution
due to construction traffic on Willowdale Boulevard
between Highway 90 and the work site entrance on
Lafayette Drive. Construction-related activities
will result in slow moving truck traffic,
an increase in dust on the road surface
and weekly street sweeping.

The contractor will clear and grade land
up to the existing property boundaries of
the subdivision. This work is necessary to
improve perimeter drainage. Please ensure that
no personal items are located within this area.

Trespassing on to the levee right of way will not be
allowed and will be monitored for potential violators.

Trespassing violations will be referred to the
St. Charles Parish Sheriff's Office for enforcement.

The Parish of St. Charles appreciates your patience,
understanding, and cooperation to help maintain a
safe environment during construction.
